HARLEY-DAVIDSON® HELMETS
HOW THEY WORK

Helmet shells are unisex and offering in multiple collections, the helmet shell code helps to identify a specific shell regardless of color or graphics. In addition, the helmet shell code will also make finding replacement parts easier – just look for the corresponding code for the appropriate visor, shield or sun shield. Replacement Parts sold on pg. 350.

H-D[®] HELMETS: THE SMARTEST DECISION YOU'LL EVER MAKE.

By partnering with industry-leading helmet manufacturers, we've created a lineup of cutting-edge helmets that look as good as they function. Custom colors, graphics and hardware give our helmets a look that's uniquely H-D[®]. All styles of H-D[®] helmets are available through our dealerships, making it easy to find the helmet that is perfect for you.

1 RIGID OUTER SHELL

Distributes force for impact and resists penetration.

2 IMPACT ABSORBING LINER

Crushes to absorb energy of impact. Amount of lining depends on outer-shell material and overall shell size.

3 COMFORT PADDING

Plus Retention System helps keep helmet in place and provides cushion between outer shell and head.

4 RETENTION SYSTEM

For safety. Always fasten while riding.

HELP PROTECT

- Helmet standards vary throughout the world.
- All Harley-Davidson[®] helmets are rigorously tested to meet the guidelines and regulations for where they are sold.

HELMET STYLES

HALF:

Minimal coverage for riders who want their helmets as open as the roads they ride.

FIVE-EIGHTHS:

Greater side and back coverage allows for the perfect blend of safety and open-air freedom.

THREE-QUARTER:

Even more coverage for the sides of the head and face provides better protection without compromising airflow or field of view.

FULL-FACE:

Protect yourself from the elements with maximum coverage and protection for the head, face and chin.

MODULAR:

All the coverage of a full-face but with the added benefit of a flip-up chin bar for easier communication.

HELMETS

ECE

NEW CAPSTONE SUN SHIELD II H31 MODULAR HELMET

Average Weight: 3 lbs. 12 oz. or 1,680 grams.

Helmet construction: Advanced polycarbonate composite shell. Lightweight, superior fit and comfort using advanced CAD technology. Double D-ring chin strap.

Stay Cool: Two intake vents and one exhaust vent.

Interior & Lining: Moisture-wicking liner. Crown and cheek pads are removable and washable. Glasses grooves accommodate eyeglasses and sunglasses.

Bluetooth® Specifications: Speaker pockets for Bluetooth® communication. SMART HJC READY.

Ride-Enhancing Features: Integrated, black dark smoke sunshield deploys quickly and easily with new wire operation system, with easy-to-reach lever position. RapidFire™ Shield Replacement System provides ultra-quick, toolless removal and installation for efficient operation. Optically superior anti-fog lens pin prepared 3D face shield provides 99% UV protection.

Manufacturer & Certification: HJC. Dual-certified to meet DOT safety standard FMVSS 218 and ECE 22-05 requirements.

NEW H-D® BRAWLER CARBON FIBER X09 FULL FACE WITH SUN SHIELD HELMET

Average Weight: 3 lbs 3 oz, or 1,450 grams.

Helmet Construction: TCT-U™ carbon composite (pre-pregated fiberglass and carbon), double D-ring chin strap

Stay Cool: 1 two-step super vent, 1 exhaust vent and 1 two-step mouth vent; Provides better ventilation control. Adjustable mouth vent intake redirects airflow to the interior surface of the shield, reducing fog build-up.

Interior & Lining: 3D laser-cut interior foam pads follow complicated face curves and give better fitting experience to riders. Newly improved emergency release system provides easier take off of cheek pads in emergency situation. Fully removable, washable and replaceable Kwikwick™ III interior absorbs and dissipates odor and humidity. KwikFit® cheek pads accommodate eyeglasses. Airfit® inflation adjustment system provides user-defined fit customization not only for comfort but for specific riding situations ranging from spirited canyon rides to long distance tours. Comm-ready speaker pockets allow for easily installation of your favorite Bluetooth® communication system speakers.

Ride-Enhancing Features: Everclear™ no-fog treated face shield with integrated center locking mechanism ensures a secure and evenly distributed seal across the eye port. Also, large eye port design creates a superior horizontal and vertical visual field. Distortion free, no-fog Everclear™ internal Speedview® sunshield features 99% protection from UVA and UVB rays. Faceshield locking lever located in mid bottom of the shield ensures more secured lock while driving. Ellip-Tec® II ratchet system featuring a 2-axis movement pulls the shield firmly into the eye port gasket for maximum seal while a preset "City Position" adjustment provides added airflow for stop-and-go city riding. CAD-refined aerodynamics resulting in a streamlined profile and balanced footprint minimizing both lift and turbulence for a smoother, quieter and more stable ride. Breath deflector and aero skirt (chin curtain) are included.

Manufacturer & Certification: Kido Sports (Scorpion). Meets DOT/ECE R22.05 requirements.

MATTE BLACK

98130-21VX

XS-S-M-L-XL-2XL

NEW HD-B09 5/8 HELMET

Average Weight: 1.9 lbs. or 900 grams.

Helmet Construction: Advanced in-mold technology with Tri-Matrix composite shell.

Stay Cool: Open face design.

Interior & Lining: Removable, antimicrobial and moisture wicking microfiber.

Ride-Enhancing Features: Extremely compact, lightweight helmet. Snap in either of the two included visors and tailor the look to suite your style, or pick up one of the clear or smoked "full-face" accessory shields and escape from the elements.

Manufacturer & Certification: Bell. Meets ECE 22-05 requirements.
